

**Claims:** I claim:

A garment that supports breasts, said garment encircling the torso and having a breast supporting front portion, and a back portion, said garment fabric and having areas of non-slipping material on the surface of said fabric, said areas being of sufficient size to counter the tendency of said garment to slide out of place on the wearer's body,

- (a) said areas of non-slipping material being silicone rubber or latex rubber,
- (b) said areas of non-slipping material having the thickness necessary to maintain integrity of said non-slipping material, said thickness being in the range of .5 to 2 millimeters,
- (c) said areas of non-slipping material being a permanent part of said garment,
- (d) said garment being of construction so as to be under sufficient tension on said wearer's body to maintain contact between said areas of non-slipping material with said wearer's skin,
- (e) said areas of non-slipping material being on the inner surface of said garment, that is, the surface of said garment in contact with said skin,
- (f) said areas of non-slipping material being located on said garment's inner surface thereon in at least one or any combination including straps, cup area or the torso encircling portion. on straps, cup area, or torso encircling portion.
